DOCKETED

SEP 26 2016

To whom it may concern,

W-01557A-15-0080

This in regards to Decision No: 75159 Docket # W-01557A-15-0079. It was ordered by August 30th, 2016 to send Docket Control a copy of ADEQ Approval of Construction certificate. However, Lake Verde Water Company just got the approval to construct two weeks ago. We are now in the process of ordering material and beginning construction. Once construction is complete, Lake Verde Water will submit info to ADEQ for approval of Construction. Once we receive that permit we will submit to Docket Control.

It is also required that we show documentation showing that the old plant equipment was removed and that the new tanks are secured. However, we have not removed the old tank yet because we are just now starting construction on the site. We have not put the pumps in yet so we have not secured them. Once this is done we will submit the documentation showing that we have done this. I am requesting an additional 60-90 days. We are working hard to have it completed before then but would like an extension on our deadlines.

Thank you

All the best

Brenda Mc Donald
Lake Verde Water Co.
